

SNCF sets up GREEN ACTS FOR SUSTAINABILITY

An internal way in order
to develop new approche in each job

7 for 10 employees are ready to involve themselves
in the development of «green acts» at job

ENVIRONNEMENT

- Reduction of air, water and soil pollution
- Biodiversity Protection
- Decrease of noise pollution
- Reduction and recycling of wastes

SOCIAL RESPONSABILITIES

- Opportunities for job to reintegrate people who are not part of the working society (long term unemployment or unqualified people)
- Prevention and educative programs with associations and public institutions
- Sustainable purchases from disabled workers

ECONOMIC EFFICIENCY

- Reduction of the consumption of fluids (fuel, water, energy)
- Buy environnement friendly furnitures
- Optimization of the equipement and its use

**Objective : to have developed
ONE GREEN ACT FOR SUSTAINABILITY
in each team before the end of 2010**

- A **Blog** to exchange news and to develop « the **SNCF Green Acts Community**».
- An **Internet web site** to share tools and practices.
- Short video **reports** to show examples of realizations
- A «Green Acts» **guidelines**
